Dear Members of the U.S. House of Representatives:
We write to express our support for advancing through the House H.R. 2874, the $21{ }^{\text {st }}$ Century Flood Reform Act, that reauthorizes and reforms the National Flood Insurance Program (NFIP). This bill represents significant progress in improving the NFIP and addresses serious issues in the NFIP, which has been on the Government Accountability Office's high-risk list every year since 2006. Each of our organizations have offered proposals to strengthen provisions of the bill, and we look forward to continuing to work with the Congress on these proposals.
